

# Carbon Flippers For Swimmers and Divers

## Technical Datasheet

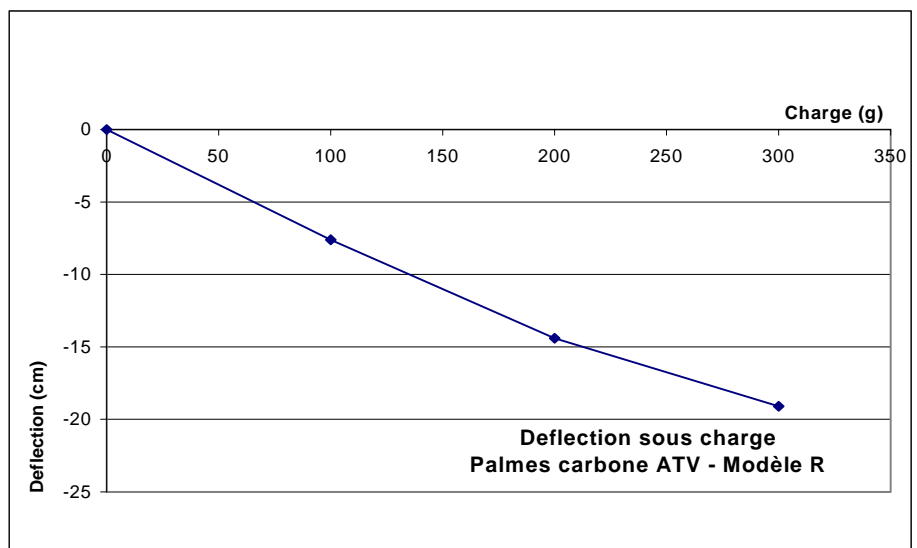

**R**ealised in carbon - epoxy in order to ensure high resistance under severe solicitations, ATV flippers have just the ideal compromise between stiffness and softness, and give an excellent reaction to the swimmer's movements.

**The carbon blade has the standard dimensions of your flipper-shoes.**

**T**he evolutive has been designed to procure the tailored rigidity to these high quality flippers.

**A** top quality product developed and tested at sea by confirmed users .

|             | R type                                | I type   |
|-------------|---------------------------------------|----------|
| Length :    | 745 mm                                | 780 mm   |
| Width :     | 220 mm                                | 225 mm   |
| Weight :    | 300 g                                 | 380 g    |
| Shoe type : | standard                              | specific |
| colour :    | Anthracite - carbon fibber is visible |          |
